Economic Modelling

Articles – titles

Bilateral trade in a monetized pure exchange economy. *John C. Eckalbar.* 3.2, 135–139

Cooperative policies among the North, the South, and OPEC: an optimal control application. *Jaime Marquez* and *Peter Pauly.* 3.3, 213–236

The Danish macroeconomic model ADAM: a survey. *Poul Uffe Dam.* 3.1, 31–52

An econometric model of the Kenyan economy. *James Elliott, Sung Y. Kwack* and *George S. Tavlas.* 3.1, 2–30

The Egyptian economy in 1999: an input–output study. *Aly Zeineldin.* 3.2, 140–146

Empty sectors in a multisectoral planning model: an analytical note. *Sajal Lahiri.* 3.3, 237–239

Expectations formation, public forecasts and the wage equation. *K. Holden* and *D. A. Peel.* 3.2, 129–134

Expenditure, wealth and the rate of interest. *Adam Bennett.* 3.1, 72–80

The external debt contribution to output, employment, productivity and consumption: a model and an application to Chile. *David E. Hojman.* 3.1, 53–71

Government policy with deficit financing, imperfect capital mobility and exchange rate effects on the supply side. *Ramu Ramanathan.* 3.2, 147–152

The law of one price and the modelling of disaggregated trade flows. *Marie C. Thursby, Paul R. Johnson* and *Thomas J. Grennes.* 3.4, 293–302

A macroeconomic model of aggregate supply and demand for the UK. *Michael Beenstock, Peter Warburton, Paul Lewington* and *Alan Dalziel.* 3.4, 242–268

The macroeconomics of India's 6th Five Year Plan. *Jørn Rattsø.* 3.4, 269–282

A model for bounded technological progress. *Sören Wibe.* 3.1, 81–85

A model for investment in Poland: a disequilibrium econometrics approach. *Wojciech Charemza* and *Miroslaw Gronicki.* 3.2, 106–116

A new classical econometric model of the world economy. *Patrick Minford, Pierre-Richard Agénor* and *Eric Nowell.* 3.3, 154–174

On the solution of general equilibrium models. *Larry J. Kimbell* and *Glenn W. Harrison.* 3.3, 197–212

Optional stabilization policies under rational expectations. *Woo S. Jung.* 3.2, 117–125

Perfect foresight models and the dynamic instability problem from a higher viewpoint. *Carl Chiarella.* 3.4, 283–292

Policy analysis with a macroeconomic model of Korea. *Sung Y. Kwack.* 3.3, 175–196

Public forecasts and their impact on expectation formation. *D. A. Peel, K. Walters* and *P. F. Pope.* 3.2, 126–128

Rational expectations models with partial information. *Joseph Pearlman, David Currie* and *Paul Levine.* 3.2, 90–105

Articles – authors

Agénor, Pierre-Richard see *Minford, Patrick*

Beenstock, Michael; *Warburton, Peter*; *Lewington, Paul* and *Dalziel, Alan.* A macroeconomic model of aggregate supply and demand for the UK. 3.4, 242–268

Bennett, Adam. Expenditure, wealth and the rate of interest. 3.1, 72–80

Charemza, Wojciech and *Gronicki, Miroslaw.* A model for investment in Poland: a disequilibrium approach. 3.2, 106–116

Chiarella, Carl. Perfect foresight models and the dynamic instability problem from a higher viewpoint. 3.4, 283–292

Currie, David see *Pearlman, Joseph*

Dalziel, Alan see *Beenstock, Michael*

Dam, Poul Uffe. The Danish macroeconomic model ADAM: a survey. 3.1, 31–52

Eckalbar, John C. Bilateral trade in a monetized pure exchange economy. 3.2, 135–139

Elliott, James; *Kwack, Sung Y.* and *Tavlas, George S.* An econometric model of the Kenyan economy. 3.1, 2–30

Grennes, Thomas J. see *Thursby, Marie C.*

Gronicki, Miroslaw see *Charemza, Wojciech*

Harrison, Glenn W. see *Kimbell, Larry J.*

Hojman, David E. The external debt contribution to output, employment, productivity and consumption: a model and an application to Chile. 3.1, 53–71

Holden, K. and *Peel, D. A.* Expectations formation, public forecasts and the wage equation. 3.2, 129–134

Johnson, Paul R. see *Thursby, Marie C.*

Jung, Woo S. Optimal stabilization policies under rational expectations. 3.2, 117–125

Kimbell, Larry J. and *Harrison, Glenn W.* On the solution of general equilibrium models. 3.3, 197–212

Kwack, Sung Y. Policy analysis with a macroeconomic model of Korea. 3.3, 175–196; see also *Elliott, James*

Lahiri, Sajal. Empty sectors in a multisectoral planning model: an analytical note. 3.3, 237–239

Levine, Paul see *Pearlman, Joseph*

Levington, Paul see *Beenstock, Michael*

Marquez, Jaime and *Pauly, Peter.* Cooperative policies among the North, the South, and OPEC: an optimal control application. 3.3, 213–236

Minford, Patrick; *Agénor, Pierre-Richard* and *Nowell, Eric.* A new classical econometric model of the world economy. 3.3, 154–174

Nowell, Eric see *Minford, Patrick*

Pauly, Peter see *Marquez, Jaime*

Pearlman, Joseph; *Currie, David* and *Levine, Paul.* Rational expectations models with partial information. 3.2, 90–105

Peel, D. A.; *Walters, K.* and *Pope, P. F.* Public forecasts and their impact on expectation formation. 3.2, 126–128; see also *Holden, K.*

Pope, P. F. see *Peel, D. A.*

Ramanathan, Ramu. Government policy with deficit financing, imperfect capital mobility and exchange rate effects on the supply side. 3.2, 147–152
